## BOLSHEVICKAIDED GERMAN SPY PLAN

Arranged for Passports to Allied Countries Fighting Huns.

### WATCHED U. S. EMBASSY

Further proof of complete understanding between the bolshevik government and the German government is contained in the third installment of secret documents released for publication today by the committee on public information. The espionage and counter espionage systems maintained by the German government, according to the documents in the hands of the committee, were fully indorsed by the Russian plotters.

Arrangements were made with the Lenin government for passports for spies who were to go to England, the United States and other countries at war with the central powers. January 21 of this year secret document No. 16 discloses the fact that certain German officers had arrived in Moscow preparatory to their departure for England, France and the United States.

### Baron Among Them.

These were Zanzwald, von Weine, Pabst, Gruenwaldt, Mayer and Baron Schilling. The chief of counter espionage in his communications says: "They have been granted passports sent here by Commissar Trotsky." He further states that von Weine, with a Danish passport, in the name of Hansen, a merchant of Copenhagen, would proceed to England. Schilling had assumed the title and name of Dr. Joseph Brun, a Norwegian, and would do service in the United States. "The remaining persons," says this communication, "will make a journey through Finland and Sweden, equipped with papers from the German staff, in order to follow up the counter revolutionary work of the countries allied to us."

### Russians to Come Here.

It was arranged to have a number of Russians identified with the Lenin-Trotsky revolution go to England, France and America to combat "the counter revolutionary movement." These were apparently expected to co-operate with the German spies. The communication calling for this move was signed by A. Shilinski, Zuzubor for the authorized commissaries. This note was indorsed by the Trotsky with the words "To be urgently executed."

A photograph of the letter is in the hands of the State Department. In a communication signed by O. Raush, chief of the Russian section of the German general staff, the commissary of foreign affairs is urged to send agitators to the camps of the Russian prisoners of war in Germany. A demand is also made that four Russian sailors be sent to Germany.

### Sought Word of Munitions.

While Russia was still nominally an ally of the United States the German government, through Gen. Kauecke, demanded that the council of people's commissars give information as to the exact amount of ammunition at Petrograd, Archangel, Krasnodar and Tiflis. This was in November of last year. Two months later special permission was given by the bolshevik government for the passage through the Russian lines and into their fortified positions of 100 German commissioned and 250 non-commissioned officers.

In a "very secret" note, January 14, Capt. Lieut. Rudolf Miller said he had been informed by wireless from the supreme naval command that a proposal to place several steamships at the disposal of German agents at Vladivostok would be made to the council of people's commissars.

"On these ships," wrote the German officer, "must be loaded the goods indicated by our named agents, and also persons indicated by them, and be sent as directed to ports of the United States, Japan and British colonies in eastern Asia."

### Spies Watched Embassies.

Document No. 25, also marked "very secret," tells how completely the embassies of the governments hostile to Germany were guarded by German spies at the Russian capital. A number of Russians assisted their German confederates at each embassy in this work of espionage. The letter authorizing this scheme follows:

"To the Commissar on Foreign Affairs: At the request of the council of people's commissars, the committee on combating the counter revolution of December 17, the intelligence section has the honor to forward a list of men watching the missions of the countries allied to Russia:

"The British embassy is watched by German Scouts Lunde, Tolman, Franz and Gesel; Russian Agents Ovsianikov, Glushchenko and Balashev. The French embassy is watched by German Scouts Silvester, Butz and Folhagen; Russian Agents Balashev, Turin, Gavrilov, Sadvonokov and Shilo.

"The U. S. A. embassy is watched by German Scouts Strom, Buchholz, Pasnacht, Todner; Russian Agents Spitzberg, Sokolnitsky, Tarasov and Vavilov.

"The Rumanian mission is watched by German Scouts Suttner, Balder and Wolf; Russian Agents Kuhl, Nikitin, Zolotov and Arkipov.

"The Italian embassy is watched by German Scouts Kuhlner, von Gese, Goin and Burnelster; Russian Agents Salov, Alekseyev and Kuznetsov.

"These agents must fulfill all instructions of the commission for combating the counter revolution, espionage, looting, etc.—Head of department, Agasfer."

### Kept Record of Visitors.

Maj. Luberts, who directed these espionage operations, kept a complete record of all persons visiting the American embassy. This was done with the full knowledge and consent of the Lenin-Trotsky government from the time these men assumed power in Russia. The document appointing the American, Japanese and Russian officers "who may command the expeditionary forces in eastern Siberia." The communication is signed R. Bauer, the head of the commission for fighting the counter revolution. The names and addresses of these agents are given in the document.

### FLAG UP FOR AMERICANS.

To celebrate the American victory in the St. Mihiel salient, the Paris municipal council had the American flag raised on the Paris Hotel de Ville, and the council's vice president sent the following telegram to Secretary Lansing:

## LIEUT. JAMES G. GRAHAM PRISONER OF GERMANY

Father Here Gets Word of Son Who Was Reported as Missing in Action.

LIEUT. JAMES G. GRAHAM.

First Lieut. James G. Graham, who was reported missing in action several days ago, is a prisoner of Germany at Karlsruhe, according to telegrams received by his father, Dr. James W. Graham, 1522 1/2 12th street, from the War Department and the Red Cross.

Lieut. Graham did not go across until April, and was not on the west front more than two months when he fell into the hands of the enemy, about July 14, just before one of Gen. Foch's big drives. In the last letter his father received from him Lieut. Graham referred to the fact that the Germans were heavily shelling the roads behind the allied line. He said little of his own exploits at the front. Lieut. Graham was born in Washington and graduated from McKinley High School. He enlisted in the District National Guard in May, 1917, and after training at Camp Dix, New Jersey, was sent across with the 110th Infantry. Lieut. Graham is twenty-eight years old and unmarried.

### DENIES MOONEY'S APPEAL.

California Supreme Court Refuses to Grant Writ of Error.

SAN FRANCISCO, September 17.—The California supreme court has denied Thomas J. Mooney permission to seek a writ of error in the United States Supreme Court. This was said to be the defense's last move in the state courts. Mooney was sentenced to be hanged following his conviction for murder in connection with a bomb explosion here two years ago. The petition is to be presented to the United States Supreme Court. Maxwell McNutt, counsel of record for Mooney, announced. If the writ is granted the Mooney verdict will not be overturned, but the case will have to be argued on its merits, McNutt said. Mooney is in the "death row" of San Quentin penitentiary awaiting execution.

## HUN TOTES COLORED WARRIOR'S PACK; HE SPORTS HIS MONOCLE

PARIS, September 7.—(Correspondence of the Associated Press.)—During the recent American advance out of Chateau Thierry a Red Cross captain was looking about for suitable hospital sites when he met an American negro soldier marching along toward Chateau Thierry, following closely behind a German major. The negro had transferred his pack from his own back to the back of the German officer and had also transferred the German major's monocular to his own eye. Thus equipped the black warrior was parading triumphantly down the road. As he passed the Red Cross captain he called out: "I say, look here what this nigger done got."

### CAUSES GREAT TIDAL WAVE.

Explosion Accompanies Eruption of Volcano, Workmen Drowned.

TOKIO, Tuesday, September 10 (by the Associated Press).—During an eruption of a volcano on Urup Island, one of the Kurile group, there was a terrific explosion, according to advices received here.

This caused a great tidal wave, which overwhelmed a force of men at work refloating a sunken ship, drowning twenty-nine of them.

## Run-Down People

### Vinol is What You Need

Weak, run-down nervous men and women need Vinol because it contains the most famous reconstructive tonics in an agreeable and easily digested form:—Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Glycerophosphates. We guarantee there is no tonic equal to Vinol.

### HERE IS PROOF

**Detroit, Mich.**  
"I got into a weak, run-down condition, no appetite, tired all the time and headaches—but had to keep around and do my housework. I read about Vinol and tried it—with two weeks I commenced to improve, and now have a splendid appetite and feel stronger and better in every way."  
—Mrs. John F. Watson.

**Texarkana, Texas.**  
"I keep house and I was weak, run-down and nervous, back ached a good deal of the time, so it was hard to take care of my chickens and do my work. Vinol has restored my strength, and my nervousness has gone, so I can do my work as well as ever. Every run-down woman should take Vinol."  
—Mrs. Emma Britt.

Well, nervous, anemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

July Shipping This Year Increases Over Same Period Last Year.

NEW YORK, September 17.—America's defiance of the submarine campaign waged along her Atlantic coast this summer is evidenced by a statement of foreign commerce issued here by the customs house bureau of statistics, showing that during the month of July both imports and exports in the New York district increased over those of the corresponding period last year.

Despite the menace to transatlantic and coastwise shipping the exports for that month totaled \$237,731,667, as compared with \$210,151,902 in July, 1917—an increase of \$27,580,765. Imports increased to \$36,101,747 from \$35,712,123, a difference of \$389,624.

Duties collected at this port, however, showed a shrinkage of \$1,975,560. They amounted to only \$9,216,322, while in July, 1917, the figure was \$11,190,792. The decrease was due to the fact that more of the imports entered this year were duty free.
